

BrakeAway Motorcycle Cruise Control Fit List

Note: The following is a list of motorcycles which have been assigned a BrakeAway part number based on our knowledge of these motorcycles in their stock form. It is possible that some model years may have characteristics or changes that we are unaware of which could affect compatibility with the BrakeAway cruise control. Aftermarket parts that come in contact with the BrakeAway cruise control may also effect compatibility. Please refer to the fitment guidelines page on our website to determine if your motorcycle meets the requirements for proper fitment. Always follow the test procedure at the end of the installation instructions to determine safe and proper operation.

Make Model	Year Range	Comments	Handlebar Diameter	BrakeAway Part Number	MSRP
Harley Davidson Fits most Harley Davidson Motorcycles with throttle cables	1996 to present	*Will not work with Fly By Wire. *Will not work if turn signal mount covers bottom of pivot pin for front brake lever. *Will work with Harley Heated grips but cruise control needs to be installed first.	N/A	6CP05	\$209.00

Safety Warning! Heated grips with wire protruding from the grip flange are not compatible with any of the following Models listed below this line. The protruding wire has the potential of becoming entangled in the cruise control components when you turn the throttle which could cause the throttle to hang up and stick open.

Make Model	Year Range	Comments	Handlebar Diameter	BrakeAway Part Number	MSRP
Honda	1996 & Newer	<u>Unless otherwise specified</u>			
Fury			1.0"	7CP01	\$179.00
Interstate	2010 & newer	Requires P/N 5C23 Turn Limiter so cruise control does not hit the gas tank	1.0"	7CP01	\$179.00
